PROFESSIONAL SUMMARY

AI Video Maker with hands-on, self-taught expertise in producing testimonial, product, and brand videos for real clients using AI video generation tools (Google Flow) end-to-end. Handles scripting, prompt detailing, and creative direction independently, consistently delivering within deadlines. Also designs brand logos for real-world clients and brings additional range through AI-assisted development and AI-assisted carousel/social post design — a full-stack AI production capability from concept to final asset.

CORE SKILLS

- AI Video Generation & Production (Google Flow)
- Video Scripting & Creative Detailing
- AI Prompt Engineering for Video & Image Generation
- Multilingual Video Production (Hindi & English)
- Logo & Brand Identity Design for Real-World Clients
- AI-Assisted Development
- AI-Assisted Carousel & Social Media Post Design
- Deadline-Driven Project Delivery

AI VIDEO PROJECTS

Me-Fit (Virtual Try-On Platform) | *Product Videos — India & USA Launch*

- Produced 4 AI-generated product videos for a virtual try-on platform, created separately for Hindi (India) and English (USA) audiences.
- Managed scripting and prompt detailing to align messaging with two distinct markets and platforms, delivered on schedule.

Changemakers | *Client Testimonial Video*

- Independently scripted and produced a real client testimonial video using AI video generation tools, from concept and script detailing to final export.
- Handled the full creative process solo — prompt design, pacing, and story detailing — delivered within the client deadline.

Botmartz Academy | *AI Video — AI Learning LMS Platform*

- Produced an AI-generated video for an AI-focused learning management system, handling scripting and creative direction end-to-end.

VisaDesk | *AI Video — Visa Services Platform*

- Created an AI-generated promotional video for a visa services platform, covering scripting, prompt engineering, and final production.

EDUCATION

B.Tech in Computer Science & Engineering

Priyadarshini J. L. College of Engineering

ADDITIONAL CAPABILITIES

- End-to-end self-directed AI video workflow — no dependency on external editors or scriptwriters.
- Designed brand logos for real-world clients alongside video production work.
- Consistent track record of on-time delivery across multiple simultaneous client projects.
- Comfortable working across AI video, AI-assisted development, and AI-assisted design/carousel content.
